This is the confirmation letter regarding your acceptance of our new offer.

This letter provides you with the details and our rules that will apply to your new position.

Read it carefully as there are several rules that must be adhere to:

1. Redirect all e-mail traffic that you receive from our clients directly to us.
- \*Do not under any circumstances reply to the messages or inquire for more information.

Your relationship will be solely as the transaction processor, all administrative issues or otherwise will be handled by us. Any disregard of this rule will make our clients nervous and may cause them to stop any pending transactions. The average questions are usually about the pending sales or future sales, again this is our department, please keep in mind that one of your job requirement is to transfer any/all these inquiries directly to us.

2. Please make an attempt to check your e-mail account twice daily, preferably in the morning and in the evening. This is a very important position and it should show that you are available to us at least during the business day.

3. This is not optional. Please reply to all our email messages that we will send to you. Most of our transactions will depend on an answer back from you and we may have to stop a transaction if we cannot get in contact with you to verify your

availability or clarify any errors.

4. Most Important Rule: Please have your phone with you during the business day.  
(preferably without a voicemail answering system).

5. Your position will be activated following a call from our company verifying your identity, the accuracy and operational function of the number that you have provided.

6. Your 1st payment will be 3-5 business days after we have activated your account. It takes our company approximately that amount of time to make a sale.

7. If you encounter any issues of any kind while working with us, Do Not keep it to Yourself, please inform us immediately of the issue and we will do everything within our powers to fix it.

8. If anything goes wrong during the process of a transaction, please report it immediately. Do not ever think that you will be blame, remember nothing is your fault by letting us know what went wrong; you will help our company do its job better and improve our systems and quality for our customers.

9. Please follow each daily instruction to the letter and without delay. Any delay on your part is a bad reflection on our company and slows down our processes. These have an effect on production which means poor profit for our company and for you.

10. If you are planning any trips that will prevent you from fulfilling your duties, please inform us 2 weeks in advance.

11. We count on you having both a responsible and respectful attitude towards this job and our team.

12. Please respond with any questions that you may have regarding our rules and this job. Also state any concerns or issues that you may have which might conflict or prevent you from doing this job. If you think that you will be unable to fulfill the
